To Whome It may concern,

I am writing today because I am concerned that the state of Michigan and the Michigan Supreme Court are being use as tools of the asbestos industry and big business to deny working people their constitutional rights to jury trials when harmed by corporate misconduct.

As I understand the Michigan constitution as well as the United States Constitution makes it clear that judges are not to make the law but rather interpret the law. Why is the Michigan Supreme Court even considering taking steps that would effectively change the law by denying Michigan asbestos disease victims their right to a jury trial.

The real crisis in Michigan is the failure of corporations to take responsibility for their bad actions and the willingness of big business and certain conservative republican judges to blame the victims of corporate misconduct instead of holding the corporations accountable.

I would ask that you consider the consequences of your actions, and realise the true victims in these cases. It is not the big corporations it is the loved ones that are left behind when someone that they love Dies a horrible death because of the greed of these companies.

The real crisis in the State of Michigan regarding asbestos litigation is the fact that big businesss, corporations, the asbestos industry and law firms like Dickinson Wright feel free to try to take working peoples lawsuits out of court and away from juries.

Just consider the Facts.

Sincerely,

Theresa Kietzman (LaFramboise)
